EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Ansel M. Schwartz, Esquire on 4/13/2006.

1. The application has been amended as follows:

IN THE CLAIMS:

- (A) Claim 9, line 7

after "...portions of the packet" added -- **;wherein before the dequeuing with the first dequeuer step, there is the step of controlling with a state machine of the fabric when the first and second dequeuers dequeuer the first and second portions, respectively, of the packet -- .**

- (B) Claim 10 has been **cancelled**.

- (C) Claim 11, line 1

"...described in Claim 10..." replaced with -- described in Claim **9** -- .

Art Unit: 2616

2. The following is an examiner's statement of reasons for allowance:

The current invention discloses an efficient technique for implementing redundancy when the fabric and port redundancies are not tied together. The prior art of record, Joseph Hook (US 6,792,484) and Pei et al. (US 6,272,109), alone or in combination fails to disclose the unique method for sending packets with a switch of a network. The method steps including "controlling, with a state machine, of the fabric when a first dequeuer dequeues one or more of first portions of the packet and second dequeuer dequeues one or more of second portions of the packet", as in claims 1 and 9 herein.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Afsar M. Qureshi whose telephone number is (571) 272 3178. If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ahmad Matar can be reached on (571) 272 7488. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
